

# TruckCam Camera Wheel Alignment Advanced System

TC-2003

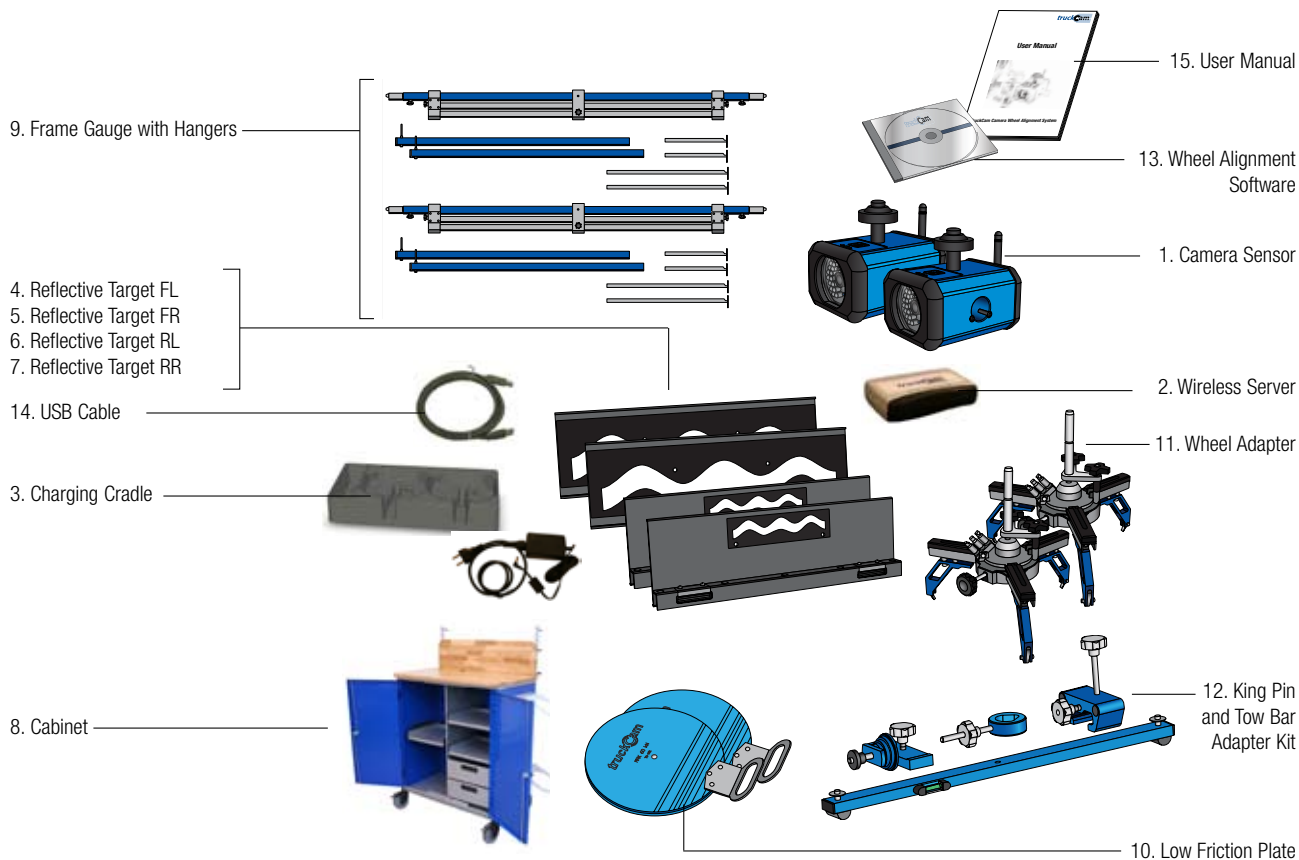

The digital TruckCam Camera Wheel Alignment Systems are the most advanced systems on the world market. With the integrated gyro and inclinometers, precise and accurate measurements are guaranteed. The systems can be used for measuring all wheel angles on commercial (heavy duty) vehicles, such as agricultural vehicles, buses, mobile cranes, trucks, trailers and vans. The computer program guides the user through the measuring process and prints out exact measuring reports before and after alignment.

#### **Main advantages of the TruckCam Systems are:**

- The combination of camera, gyro and inclinometers provides the highest accuracy and repeatability.
- The TruckCam Systems are able to compensate influences from floor/ground and/or tires.
- Very fast operating time based on rolling method technology
- Wireless communication allows highest flexibility
- Live reading of values during adjustment
- Mistakes during operation reduced to a minimum

### TruckCam Camera Wheel Alignment Advanced System, TC-2003:

ITEM	PRODUCT	PRODUCT NUMBER	QTY
1.	Camera Sensor	TC-256	2
2.	Wireless Server	TC-305	1
3.	Charging Cradle	TC-395	1
4.	Reflective Target FL	TC-216-10	1
5.	Reflective Target FR	TC-216-20	1
6.	Reflective Target RL	TC-216-30	1
7.	Reflective Target RR	TC-216-40	1
8.	Cabinet for System Parts	TC-504	1
9.	Frame Gauge with Hangers L=320 and L=620	TC-102	2
10.	Low Friction Plate	TC-152	2
11.	Wheel Adapter 12" - 24"	TC-150	2
12.	King Pin and Tow Bar Adapter Kit	TC-410	1
13.	Wheel Alignment Software	TC-700-V.2.0.0	1
14.	USB Cable 1.8m	TC-361	1
15.	User Manual for Camera Wheel Alignment System	19100	1
